The American Tackle Company™ is pleased to introduce the ProWrap™ Rod Building Thread. In development for over a year and tested by rod builders, ProWrap™ thread will be available in 80 colors in both Nylon and Color Fast – in three spool sizes – 100 yd, 1 oz and 4 oz. The 100 yd span spools work perfectly on power wrappers. ProWrap thread features strong tensile strength and bright colors pressure dyed for color consistency.

Making it easy for rod builders to select just the right colors, The American Tackle Company™ introduces the “Color Number System”™ or CNS for short – which provides the customer the ability to easily identify colors and shades of colors based on their numbering.
